KEY WEBSITE FEATURES

Multilingual Support (EN · BM · 中文 · Iban)

Full platform experience in 4 languages — English, Bahasa Malaysia, Chinese, and Bahasa Iban. Built for everyone, everywhere across Malaysia and Borneo.

✓ Including Bahasa Iban

Strava Live Tracking Integration

Real-time GPS tracking powered by Strava — live progress updates, pace, distance, and detailed performance insights for every runner during race day.

✓ Live Map Integration

Automated Team Registration

Create your team, invite members, and register together — quickly, easily, automatically. One flow handles multi-runner group bookings with no manual coordination needed.

✓ Group-Ready

Event Discovery (5K / 10K / 21K / 42K)

Filter and browse events by distance category. Clean event cards with date, location, and category tags — making it effortless to find and join your next race.

STRAVA LIVE TRACKING INTEGRATION

Bala bejako Iban — Platform tu dibina ba kitai semua.

★★★★★

"Run Kita Run! finally has a platform that matches the energy of our community. The Strava integration is incredible — runners can track live during races. But what really sets it apart is the Bahasa Iban support. Our Iban-speaking runners feel seen for the first time. The automated team registration alone cut our admin work by half. This is the platform the Malaysian running community deserved."
